To Whom It May Concern:

Our school just completed its fabulous participation in the Dancing Classrooms Program. This experience proved to be so much more than words could say. It was culturally enriching, socially instructional and mentally satisfying for our students. They were filled with extreme pride as they shared their accomplishments with schoolmates, parents and friends. They came so far under the guidance of Mr. Daniel Gonzalez, a truly gifted dance instructor.

The accolades and compliments are overflowing from all those in attendance. The fourth graders in the audience can't wait for their turn next school year. I also observed a new level of faculty involvement as several co-teachers joined into to offer support and participation as we neared today's performance.

We extend our profound gratitude to Mrs. Vallee for the vision to bring this exciting experience to our school. Hopefully we can continue in years to come.

Sincerely,

(Mrs.) Betty J. Sims, Principal
